

Learning Services

Make learning fast, engaging, and effortless with AI-enabled solutions

Training new staff, upskilling teams in new products or supporting seasonal ramps can cost organizations hundreds of thousands per year in resource costs, and still deliver a subpar customer experience

Our proprietary award-winning Learning Solution leverages the latest Artificial Intelligence (AI), voice recognition, machine learning technology, responsive game development, and data visualization to simulate the same real-world customer scenarios associates experience before they take live calls from real customers.

Three components work cooperatively and seamlessly to prepare learners for success

AI-simulated Conversations

AI-powered engine that provides asynchronous practice, consistent feedback and personalized coaching

Sandbox

Responsive front end and database that enables PCI compliant systems practice

Dashboard

Operations-based, insights platform that provides KPI performance, including speed-to-proficiency

Make learning fast, engaging, and effortless with our award-winning solution

Traditional training methods can be unengaging and have ongoing expenses that add up to large amounts of money over time. Our learning solution is easy to implement, requires minimal upkeep and upskills employees quickly and effectively.

2020 WINNER

Disruptive Technology of the Year for our AI-powered learning solution RealSkill, which lets associates simulate customer interactions and receive coaching in real time.

AI-powered Learning drives real-world results

36%

Decrease in training attrition

50%

Reduction in contact center nesting

75%

Increase in speed-to-proficiency

- + Speedy Implementation
- + Seamless Integration
- + Comprehensive Training Platform
- + Consistent Training Methodology
- + Scalable Model

Use AI to speed up the learning curve

Associates can conduct mock sessions to get familiar with products, services, and common customer interactions. This will boost their confidence and keep them engaged so they can help customers faster and provide better experiences.
